

**Hi,I'm Nirmal Pandey.** I love coding, doing research,and collaborating with teams.

---

### STRENGTHS

- Oral and Written Communication
  - Fast Learner
  - Team Buildings
  - Committed To LifeLong Learning
  - Reliable and Consistent
- 

### EDUCATION

- I am currently studying **BICT** in **VIRINCHI COLLEGE** . <https://virinchicollege.edu.np/>
  - Ongoing Fourth Semester
- 

### LANGUAGES

- Python
  - JavaScript
  - HTML & CSS
  - C
  - Java
- 

### SKILLS

- Django
- Django Rest
- Mysql
- React
- Git
- AWS(EC2,S3,RDS)
- Linux(Ubuntu)
- Wordpress

### SHORT TERM GOAL

Besides building projects,I would like to learn new set of skills which might assists me to enter the position where I can be the part of bigger teams and learn extra from other with more experienced than myself, and implement such concepts in real world project.

---

### HOW I LEARN

- Reverse Engineer And Build Ugly Prototype First
- If I want to learn about the pre-existing product then I break the various components piece by piece and work on separate piece of component to make it work,and also try to find out why things work the way they do.
- Documentation,videos,books,and somewhat blogs is the main reference for me to learn.
